

GAMA Days 2023 Workshop

Nov 13 to 15, 2024 (free registration, online event).

<https://gama-platform.org/gama-days-2024>

After 2 successful edition in 2021 and 2022, the GAMA Days 2024 is the 3rd conference, where users and developers of the GAMA modelling and simulation platform will have an opportunity to meet, present their work, expose their difficulties, propose enhancements and, more generally, exchange and collaborate on exciting topics related to GAMA!

KEYWORDS

GAMA, Multi-agent systems, model, Simulation, Complex systems, model coupling

Abstract submission

GAMA Days 2023 seeks submissions of abstracts that:

- presents a new **feature** for GAMA
- presents a **model** that uses GAMA
- live demo or master class

Please refer to the website for details on the submission:

<https://gama-platform.org/gama-days-2024/CFP.html> . At least one of the authors of each submission is required to register, attend, and present at the conference.

Important dates

Abstract submission deadline: 14. Oct, 2024

Notification of acceptance: 28. Oct, 2024

Conference: 13. - 15. November, 2024

Peer-review and publication

The program committee will review all submissions and decide, whether a contribution is accepted for a talk, accepted for an elevator pitch, or rejected.

All accepted abstracts will be published on the HAL open archive. Accepted contributions will further be invited to submit short or full papers to a special issue. The deadline will be after the conference, around September 2022. More detailed information will follow.

The event will be hosted by [IRD/UMMISCO](#)
